A Revolutionary Approach to Trauma Resolution Therapy

HMR Level 1 & 2 Training

June 21—June 23, 2019
OM Toronto

55 Spring Garden Ave. Suite 200
Toronto, Ontario, Canada

BRENT BAUM
developer of
Holographic Memory
Resolution®

Unresolved polarities of trauma — fear, shame, and anger — are like restrictive chains that tie us to the past.

The average person holds the static energy of trauma in many sites in the body. These dense energies, generated from external events, hold immense power, weaken our immune systems, and insert their own protective reasoning and intentionality.

HOLOGRAPHIC MEMORY RESOLUTION® (HMR) is a gentle, client-centered process that facilitates the resolution of painful emotions and physical illnesses due to traumatic events *without* “re-living” the event or affecting historical memory. The result is release, recovery, and healing.

Discover and experience the principles of the HMR trauma treatment and how HMR helps heal the mind/body.

The focus is on immediate use of this modality in your life and in your practice and is open to both health care professionals and non-professionals.

Join Brent for this 3-day seminar and learn how you can use the transformative power of HMR for the recovery of physical, mental, and emotional health.

Tuition: \$350 USD (\$470 CAD) with a \$175 deposit. To register, contact Beverly Meland at 224-558-4342 or bevmeland@gmail.com. Register by June 1st and receive a free copy of Brent Baum’s latest book “*Surviving Trauma School Earth*.”

BRENT BAUM, STB, SSL, CADAC, CCH, is a trauma resolution specialist who teaches trauma survivors to access memories to resolve emotional and physical pain associated with traumatic events. Visit www.healingdimensions.com to learn more.
